

SUCCESS STORY: GLOBAL MANUFACTURER OF AUTOMOTIVE STEERING SYSTEMS

# Fully Managed IT Services with Advanced Security

SOC 2  
TYPE II  
CERTIFIED

## Introduction

For over 40 years, a world-class manufacturer and supplier of superior steering products for the automotive industry have been satisfying the demands of world-wide automotive clients who expect the very best in product quality and performance, customer service, and technical support.

## Challenge

As a global manufacturing company with offices located in China, Poland, Brazil, Michigan (USA), and more, the company needed:

- Optimal IT support for a multi-site, global team.
- Expert Security Advisory services to fortify its cybersecurity posture.
- Professional services for new office builds and designs for an optimal IT environment.

## Solution & Outcome

Sourcepass provides full transparency and demonstrates accountability, proactive support, and expertise across multiple technologies. With a Sourcepass Managed IT Services with Advanced Security and Security Advisory Services agreement, Sourcepass was able to meet and exceed client needs by providing the manufacturer with the following IT optimization services:

- ✓ Multi-site SD WAN support
- ✓ Supplemental support resource in various locations
- ✓ An optimized infrastructure
- ✓ Guidance and professional services for new office locations
