CERTIFIED

Introduction

Landscape Workshop is a full-service grounds maintenance provider for commercial properties across the Southeast. Its carefully-cultivated team of professionals includes degreed horticulturalists, expert landscapers, irrigation specialists, and experienced e-verified, background checked crew members. Headquartered in Alabama and doing business since 1984, Landscape Workshop offers services ranging from maintenance to irrigation to snow and ice removal.

Challenge

For a business that experiences continuous growth, the need for the right productivity solutions becomes increasingly important to ensure successful business operations. Landscape Workshop was looking to migrate its business to the top-of-the line productivity solutions that would include features such as:

- Enhanced collaboration between employees
- Streamlined business processes and automated routine tasks
- Data security and conditional access policies
- Data access from anywhere powering work-from-anywhere and hybrid workplace
- Optimized Infrastructure powered by Microsoft 365

Our Approach

Sourcepass understood the challenges that Landscape Workshop faced, and has the expertise required to optimize the company's infrastructure and foster its continued growth.

Sourcepass productivity solutions help individuals and groups to work smarter, not harder by leveraging technologies that are flexible and generally easy to adopt. Sourcepass started to design a custom solution based on Landscape Workshop's work style, priorities, and workflows to help achieve maximum value and effectiveness.

Solution

Landscape Workshop had a busy year in 2023. In addition to its search for optimized productivity solutions, it acquired two new companies. They began working with Sourcepass to migrate their operations as well as help with the integration of the two recent acquisitions. Sourcepass migrated the following:

- ✓ Its productivity solutions, including email, to Office 365
- ✓ Its endpoints to an Entra ID/Intune-based environments
- ✓ Its servers to the Azure cloud

“

We had a great experience with this migration and our employees are happy with the enhanced communication services.

– *Chase Matherson, IT Director*

”

Conclusion

Sourcepass was able to successfully migrate Landscape Workshop to Microsoft cloud solutions and assisted with the integration of the two recently acquired companies.

With business services that operate year-round, Landscape Workshop is happy with the addition of productivity tools and the migration to the Azure cloud.

Sourcepass provides the technical expertise, strategic guidance, and impactful technology solutions to transform your company into a modern, secure, cloud-enabled business. Start your journey today by contacting us at 646.681.5528 or visit www.sourcepass.com.
