

SOURCEPASS

Here's an example of what Sourcepass can do for you

Industry: Solutions Provider for Legal

Key Metrics: Headquartered in NYC, over 50 employees

Client Since: 2018

Client Profile: This solutions provider has been serving the legal industry for nearly 20 years and offers the highest quality, most accurate and in-depth data on the legal market for law firms, legal recruiters and legal departments. Developed in direct response to the professional needs and emerging industry trends, its legal intelligence technology is continuously updated to ensure relevancy and the competitive edge of law firm, legal recruiter, law school and corporate clients.

Scope of Engagement: Sourcepass provides the client with onsite and remote 24x7 remediation, dark web monitoring and awareness training, next generation anti-virus, advanced endpoint detection and response, endpoint persistence monitoring, website filtering / predictive threat intelligence, and Office 365 monitoring.

Results: With inconsistent and poor IT services from their previous managed service provider, the client discovered Sourcepass and signed an agreement. Since their onboarding in 2018, the client continues to say that our customer service is the best and they are very happy .

Sourcepass puts you in control of your digital universe by providing the right blend of technologies working seamlessly and powerfully, enabling you to transform your business. To discuss receiving an IT experience that our client's love, please call us at (877) 678-8080 or visit us at www.sourcepass.com.
