## Expert Security Solutions for Enhanced Safety

With the sophistication of physical security solutions, it is crucial to work with an experienced partner that understands how to plan, design, and integrate enterprise-ready security solutions into existing IT networks. Sourcepass GOV helps clients maximize the safety of their environments through comprehensive planning, technology, and systems integration solutions for improved situational awareness and crisis management.

With Sourcepass GOV, you can rest easy knowing that we have the necessary network expertise when it comes to installing physical security.

### Why Choose Sourcepass GOV?

- ✓ **Access Control:** Ensure the proper physical security solutions are in place to keep you, and your community, protected.
- ✓ **Peace of Mind:** Our team of experts has extensive experience installing physical security at state & local government entities, school districts, and more.
- ✓ **Trust:** Ensure the reliability and integrity of the systems protecting sensitive environments.
- ✓ **Governmental Contracts:** All Sourcepass GOV services are available on GSA, NYS contracts, and BOCES LAN / WAN Service contracts.

### Our Offerings Include:

- **Video Surveillance**
- **Door Access Control**
- **Video Door Stations**
