

CYBERSECURITY SERVICES

# Governance, Risk, & Compliance

Align your IT with business objectives and regulatory compliance.

## Navigating Complexity, Ensuring Integrity.

Sourcepass offers Governance, Risk, & Compliance (GRC) services, powered by Ostendio, to help businesses effectively manage IT and security risks.

GRC reduces costs, and meet compliance requirements by implementing policies and procedures, identifying and reducing risk, and following industry compliance regulations.

At Sourcepass, we offer GRC services to help your business manage operations and ensure you're meeting compliance and risk standards.

### How We Keep Your Business Secure

-  Risk assessments
-  Penetration testing for system feasibility
-  Policies and procedures
-  Compliance and internal auditing

Non-compliance is never an option when your business depends on your customers' trust.

Sourcepass provides the infrastructure and guidance to adhere to compliance standards specific to your industry and needs while taking the complexity out of the regulations.

## Benefits of GRC Services

- Improved Security Posture**

Rest assured knowing that our services manage and reduce risk, ultimately safeguarding your valued business assets.
- Industry Regulated Compliance**

Leave the complexities of industry regulations up to our team. Our team of experts guide you on your compliance journey.
- Documented Policies & Procedures**

Our tools make it easy to create, update, and maintain policies and procedures, ensuring they are aligned with compliance requirements.
- IT Alignment with Business Goals**

We ensure that your IT operations are directly aligned with your business goals, leading to more strategic decision-making.
- Cost & Risk Reduction**

You benefit from reduced costs and risks by avoiding duplication, fines, and reputational damage.
