CENTER OF EXCELLENCE FOR MICROSOFT

Modernize your phone system with Microsoft Teams Phone

Microsoft Teams Phone makes it easy for organizations of any size to turn Microsoft Teams into a powerful and flexible phone system. If you are considering replacing your legacy in-house phone system (PBX), that can be costly and complex to manage, Teams Phone is an excellent solution.

Benefits of Microsoft Teams Phone

- Teams Phone is integrated into the Microsoft Teams platform.

- Simple set up and management.

- No need to change phone numbers. It is easy to port them over to Teams Phone.

- Great for growing companies. Purchasing additional licenses is quick and simple.

- Available on desktop phones, mobile devices, computers, headsets and conference phones.

- Advanced feature set including call forwarding, call queues, voicemail, call transferring, auto attendant, office hours, call park, call block, call delegation and more.

Licensing Information

Microsoft Teams Phone System + Calling Plan is available for any "core" Microsoft license (ex. Microsoft 365 Business Standard, Office 365, etc.)

Support

Sourcepass Center of Excellence for Microsoft offers a range of robust Microsoft Teams Phone support plans ensuring your company peace of mind, quick access and expert support resources.

Why Sourcepass?

We make it our business to understand what companies need, simplify processes, protect data, ensure you have the right level of support and offer consultation when it's needed.

Sourcepass is a Microsoft Solutions Partner with a team of certified experts who help companies identify and deploy the right technology at the right time. We are here when you have a simple question, want to change licenses and/or investigate and expand your Cloud journey.

Most importantly, we care. The experience you have with Sourcepass is just as important to use as delivering powerful solutions that help your company be your best.
