

PRODUCTIVITY SOLUTIONS

Microsoft 365

Innovative productivity, security, and collaboration to drive your business.

Boost Your Business

Many organizations are embracing the emerging trend towards employees working remotely, driving a need to transform their network infrastructure to accommodate a distributed mobile workforce.

Microsoft 365 empowers businesses to leverage the benefits of this innovative and powerful computing experience to drive growth, scalability, and increased security.

Whether you are just getting started with Microsoft 365 or exploring the advanced features of the platform, our team of Microsoft Certified Specialists provide expert guidance on licensing, feature adoption, security, and the training you need to ensure a successful Microsoft 365 experience.

- Simplified licensing for the Microsoft Office 365 Suite
- Cloud-based Identity Management via Entra
- Cloud-based File Sharing & Collaboration with SharePoint, OneDrive, and Teams
- Options for Mobile Device Management using Intune
- Automated Device Provisioning using Autopilot
- Optional Copilot AI to drive productivity, insights, content creation, and more

Key Benefits

✔ Seamless Experience

Present your employees with a simplified experience when signing on, accessing apps, and sharing data.

✔ IT Simplification

Simplify how you run your business with a solution that helps you create, connect, and collaborate securely from anywhere.

✔ Scale Securely

Safeguard your business data and devices with centralized identity, security, compliance, and privacy protection.

✔ Optimized with Copilot

Work more productively, boost efficiency, and improve business outcomes with Copilot for Microsoft 365.

Microsoft 365

Microsoft 365 Migration

As Microsoft Solution Partners, our team has successfully migrated 1000s of users to Microsoft's business productivity and collaboration platform. We have the experience and expertise to ensure your migration to this leading cloud solution is seamless and provides the maximum value to your company.

Our Process: Our team will guide you along every aspect of your move to Microsoft 365 by carefully planning and implementing the migration, deploying the most beneficial features to your business, and assisting your employees with follow-up training.

Microsoft 365 Security Hardening

Our Microsoft 365 Security Hardening Service will uncover the security gaps within your Microsoft cloud environment that represent risk to your organization.

Our Process: Sourcepass provides clear reporting and a roadmap to get your Microsoft 365 environments on solid footing. We review key features and configurations of Microsoft 365, such as multi-factor authentication, conditional access, forwarding rules, abnormal login attempts, and a multitude of other important security settings to reduce risk and improve privacy and reliability.

Copilot for Microsoft 365

Copilot for Microsoft 365 unlocks the power of artificial intelligence to help your team create content, provide intelligent Teams meeting recaps, analyze data, and much more. Copilot is weaved in each component of Microsoft 365 to enhance your experience and deliver results.

Our Process: Our Copilot Readiness Assessment service identifies sensitive data and privacy settings to ensure your deployment of Copilot follows best practices for data governance. In addition, we'll assist with creating your initial pilot group of users, conduct training, and help you drive adoption throughout your organization.
