

Assess. Strengthen. Protect.

Microsoft Defender Assessment

Our Microsoft Defender Assessment helps you get the most out of your existing Microsoft security tools. We evaluate your current configurations and provide clear, actionable steps to improve security posture, performance, and cost-efficiency.

Why It Matters

Your investment in Microsoft Defender tools is only as effective as their implementation. This assessment ensures you're using them correctly, securely, and cost-effectively—helping you reduce risk and better protect your business.

Objectives

- Evaluate your current Microsoft 365 and Azure Defender configurations
- Align with Microsoft's best practices and your organization's security requirements
- Identify risks and inefficiencies in your current setup
- Deliver practical recommendations to enhance protection and reduce total cost of ownership

Deliverables

- Completion of project milestones
- A detailed Findings & Recommendations Report
- Optional Execution Plan (available at additional cost)

Total Avg. Cost: \$4,650*

*Price dependent on size of network and amount of devices

Milestones

1. Project Planning

Validate Microsoft 365 and Azure licensing, identify stakeholders, create a project plan, and ensure access to required systems.

2. Discovery & Assessment

Assess selected Microsoft 365 Defender and Azure Defender services. Analyze Secure Score and Azure Security Center data to uncover misconfigurations, performance gaps, or security risks.

3. Findings & Review

Prioritize recommended improvements, walk through key insights with your IT team, and answer questions to ensure clarity.

4. Project Completion

Deliver and review all final reports and confirm project wrap-up or plan for next steps.

Why Sourcepass MCOE

As a trusted Microsoft Solutions Partner, Sourcepass MCOE brings deep cloud expertise, proven methodologies, and a commitment to maximizing your Microsoft Defender investment.
