

# Transform Your Communication Experience

## Microsoft Teams Phone

Microsoft Teams Phone empowers organizations of all sizes to seamlessly turn Microsoft Teams into a robust, flexible, and cost-effective phone system. If you're looking to replace an outdated in-house phone system (PBX) that's costly and complex to manage, Teams Phone offers the ideal solution.

### Key Benefits of Microsoft Teams Phone

- **Fully Integrated:** Leverages the power of the Microsoft Teams platform, so your phone system works seamlessly alongside your existing tools.
- **Effortless Setup & Management:** Designed for simplicity, making setup and management a breeze with minimal IT overhead.
- **Keep Your Numbers:** Easily port your existing phone numbers over to Teams Phone with no disruption.
- **Scalable for Growth:** Adding licenses for new users is quick and simple, making it perfect for growing organizations.
- **Versatile Devices:** Teams Phone is available across all devices—desktop phones, mobile phones, computers, headsets, and conference phones—ensuring connectivity wherever you need it.
- **Feature-Rich:** Advanced features like call forwarding, call queues, voicemail, call transfers, auto attendants, office hours, call park, call blocking, call delegation, and more, giving you everything you need to manage communication efficiently.

#### Licensing Information

Microsoft Teams Phone System + Calling Plan is available for any "core" Microsoft license (e.g., Microsoft 365 Business Standard, Office 365, etc.).

#### Comprehensive Support

Sourcepass Center of Excellence for Microsoft provides a range of comprehensive support plans for Teams Phone, ensuring your organization gets quick access to expert help whenever you need it, so you can focus on what matters most.
