PROFESSIONAL SERVICES

# Staff Augmentation

Boost Workforce Capacity to Meet Increasing Demands

**SOC 2 TYPE II CERTIFIED** · AICPA SOC · ISO/IEC 27001

## Skilled IT Professionals to Optimize Your Team

As part of our productivity suite, Sourcepass offers services to help you fill temporary or long-term positions with skilled technicians and engineers who can augment your team on a full-time basis permanently or for a defined duration.

Our resources fit seamlessly into your team and provide the ability to respond quickly to changes in demand without having to hire permanent resources to full-time positions.

- ☑ Options to Scale Personnel Up or Down
- ☑ Flexibility Through Subcontracting
- ☑ Expanded Team of Skilled IT Specialists for Projects

## Business Benefits

**Cost Savings:** Manage resources more effectively and save on costs associated with hiring full-time employees by supplementing your in-house team with external IT professionals.

**Access to Specialized Skills:** Get direct access to a global pool of specialized talent, allowing you to fill skill gaps and address specific support or project needs.

**Flexibility & Scalability:** Some available staff augmentation options allow you to scale your workforce up or down based on demands, without the long-term commitments of traditional hiring.

**Reduced Administrative Burden:** Minimize recruitment costs, training expenses, and overhead associated with maintaining a larger in-house workforce.

**Enhanced Project Control & Integration:** Supervise over the augmented staff, ensuring they integrate well with your existing teams and align with your IT goals.

**Knowledge Transfer:** Collaborate with external experts to facilitate knowledge transfer within your business, helping your internal team members acquire new skills and insights into emerging technologies.
